## TALKING ACTION SAILOR®

FIGURES AND ACCESSORIES REMINISCENT OF  
THE GOLDEN AGE OF G.I. JOE  
(1964-1976)

Traditionally known as America's first line of defense, the United States Navy has a long and proud history of defending the nation's interests, while protecting it from enemy attack. Those who become part of the Navy's illustrious history must first undergo an intensive training program. From there, many sailors will serve at sea as part of that defensive front line, ready to sail into harm's way at a moment's notice. American sailors are dedicated individuals who periodically acclimate themselves to life aboard vessels for long cruises at sea. To that end, serving on board the world's most powerful warships and defending America's interests across the globe are daunting responsibilities, but tasks that the sailors gladly accept and handle successfully every day.

GI JOE® Action Sailor® figure first took to the high seas in 1964 and was later re-equipped with "talking" capabilities in 1967, during which time he participated in many clandestine naval cruises against the enemies of freedom-loving people everywhere.

A GI JOE Talking Action Sailor was prepared for special assignment anytime, anywhere. The original battle cry of the 1960s can still be heard: "GI JOE, GI JOE - fighting man from head to toe. On the land, on the sea, in the air..."
