INSTRUCTIONS FOR ASSEMBLING TENT

CONTAINS 6 tent pole sections and 10 tent pegs-

1-Cut a piece of corrugated cardboard 14" x 31" to use as base for setting up tent.

2-Lay tent flat on cardboard with two guy line loops on top. (see illustration). Make sure side #1 of tent is about one inch in from edge of board.

3-Put a peg thru each of 3 rope loops at side #1 of tent and fasten by inserting peg into board. (If this is difficult, pre-punch board with pencil.)

4-Join 3 of the 6 pieces of tent pole sections to form a tent pole by inserting plugs into tent pole openings at either end — repeat with remaining 3. (see illustration.)

5-Insert small end of tent pole into underside of either eyelet and stand tent pole straight up. This raises one end of tent.

6-Keeping pole straight, put a peg thru the rope loop nearest pole on side #2 of tent and fasten by inserting peg into board. Draw guy line nearest pole taut and fasten with peg.

7-Repeat steps #5 and #6 for other end.

8-Insert pegs in remaining loop of side #2 and flap loops at each end.

HOW TO CHANGE G. I. JOE® FIGURES UNIFORMS.

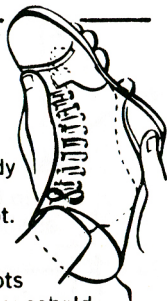

1. To dress G. I. JOE® in any clothing or gear that goes over his arms, move his arms back.

To put on pants, slant foot slightly forward and pull pants over feet with boots off.

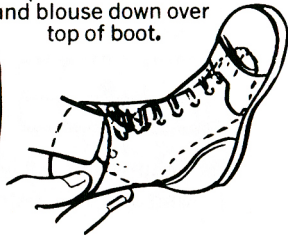

BOOTS OFF — grasp heel and gently pull boot from foot. Steady with other hand as you work boot off foot.

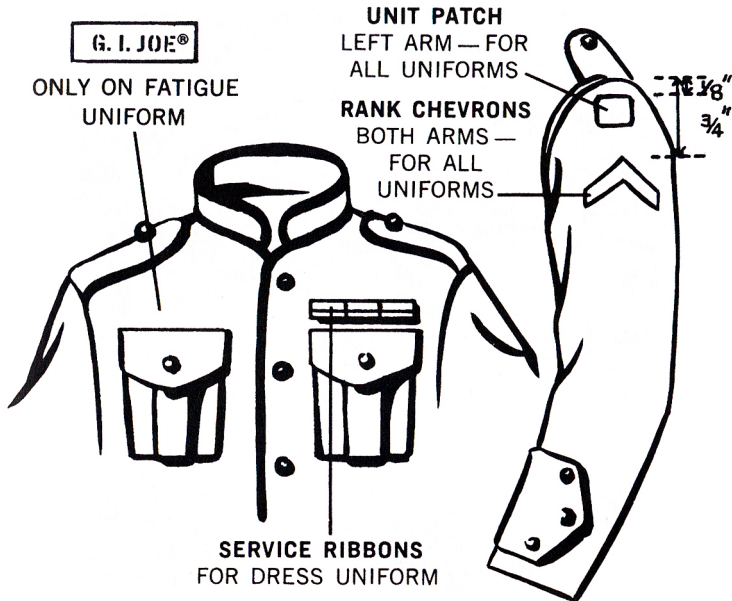

BOOTS ON — For ease in putting boots on, sprinkle any household powder inside of boot.

Grasp top, rear edge of boot and pull up gently. Tuck pants inside of boot and blouse down over top of boot.
